HACKING ONLINE

HELP

Getting help online and finding mentors was harder than we're used to!

BUILDING A TEAM

We knew we wanted to work together - but wanted to grow our team

DISTRACTIONS

Less distractions than a real-life event - kept us focused!

COMMUNICATING

Harder to plan and communicate - especially across time zones!

NEW TECHNOLOGY

We had issues building on everyone's computer, so screen sharing actually was a really helpful tool to work together

Hackathon Tracks

1	2	3
		
Emb(RACE)	Climate Change ★	COVID-19

Real World Problem

More people want to participate in environmentally ethical consumption - but it is extremely difficult, inaccessible, and confusing to do so

End Users

Everyday shoppers that do not have the time and energy to research the harmful ingredients present in food/personal care products

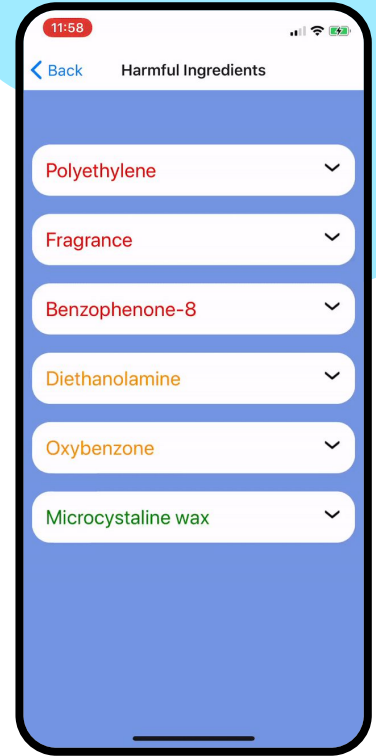

WHAT WE WANTED FROM OUR SOLUTION

BENEFITS AND FEATURES OF SHOPICAL

- ❖ Compare products and make informed decisions on what to buy
- ❖ View sorted ingredients clearly with most harmful in red, moderate in orange, and safe in green
- ❖ Use on both food and personal care items
- ❖ Eliminate time spent researching
- ❖ Make shopping less overwhelming
- ❖ Educate yourself on a daily basis
- ❖ Limit environmental damage
- ❖ Support ethical companies and products

Red Hat OpenShift

POTENTIAL BUSINESS MODELS

PREMIUM

Offer a paid, premium account that gives you bonus features (e.g. storing fav/red-flag ingredients, tracking your consumption over time)

ADS

Run ads on the application - allows all features to be available to everyone for the most accessibility

LITE

Free lite model allows a few scans per month - paid upgraded account allows for unlimited scans

AWARDS

One of 9 teams to
present in the final
round out of all 126
